

# Mitchell RepairCenter™ and Martin Senour® FormulaExpress® **TOGETHER!**

## **MITCHELL REPAIRCENTER:** **IT'S YOUR SHOP. IT'S YOUR WORKSPACE.**

Focused on improving growth and profitability for any size business, RepairCenter™ is the first solution that allows you to select key functionality from over 30 RepairCenter modules to fit your shop's unique needs. Mitchell has combined repair management, customer experience management, and business management into a single, cohesive Workspace—all intuitive and easy-to-use.

## **REPAIRCENTER:** **NOW WITH FORMULAEXPRESS®**

Now RepairCenter offers seamless, bi-directional integration with Martin Senour® FormulaExpress® Formula Retrieval System—saving valuable time and reducing

errors by eliminating the need for shop personnel to rekey vehicle and RO information within FormulaExpress®. This means that you enter the information once, and accurate paint material costs are automatically transferred back into RepairCenter—improving your business management, while ensuring that you invoice customers and insurance companies for the true list price of the paint used.

It also provides you with more accurate overall job costing information by replacing a rule-of-thumb-based cost estimate with your true paint costs based on Martin Senour's list price.

With the new RepairCenter–FormulaExpress® integration, you will also benefit from easy access to operational and financial key performance indicators, improved materials management, and increased technician efficiency.
